### A DULL STOCK MARKET

DIVIDEND-PAYING STOCKS, HOW-EVER, IN DEMAND BY INVESTORS.

Business on New York 'Change Light and Confined to Few Shares-Local Markets More Active.

At New York yesterday money on call was easy at 21/603 per cent.; last loan, 21/2;

closed, 21/2@3. Prime mercantfle paper, 566 per cent. Sterling exchange was strong, with actual business in bankers' bills at \$4.55%@ 4.86 for demand and \$4.821/4@4.821/2 for sixty days; posted rates, \$4.82\\64.83\\ and \$4.86@ 4.87; commercial bills, \$4.81.

Bar silver, 65c: silver certificates, 674@ 65%c: Mexican dollars, 50%c. At London bar silver closed at 29 15-16d per ounce. Total sales of stocks were 203,351 shares, including the following: American Sugar, 40,100; Burlington, 9,100; Chicago Gas, 4,600; General Electric, 4,000; Manhattan, 5,500; Pacific Mail, 5,200; Reading, 20,600; Rock Island, 4,000; St. Paul, 13,600; Tennessee Coal and Iron, 4,800; Wheeling & Lake

Erie, 3,100; Southern railroad preferred, 3,-600; silver certificates, \$13,000. The New York stock market is dull and moves, generally speaking, within a narrow range, owing to the fact that holders of securities will not sell to any appreciable extent, although nearly all of the professionals are ranged on the bear side. Transfers of the dividend-paying stocks show a large and steady movement into he hands of investors, and representative investment bond houses report that the largest over-the-country inquiry for small lots of bonds, including governments, railway and prime municipal issues, that has ruled within a year. Individuals, corporations and trust companies are in the market for large and small lots of bonds and the supply of first-class material is light. Leading bankers say that it is now difficult to put out short-time money at even 4 per cent., while the market is bare of prime mercantile paper in the face of a brisk demand. These facts explain the indifferent success obtained by the bears restock in cases where there is no specific unfavorable news. Business yesterday was light and was practically confined to four stocks, the dealings reflecting almost entirely professionel operations. The market was strong in tone in the early session and noteworthy gains were scored in the specialties. The shorts covered freely, although actual starting covered freely, although actual sterling rates were marked up about a half cent and in some instances posted figures as well. The strength of exchange was attributed to the increased demand for remittance purchases facili-tated by the easier monetary conditions in New York. There was also some disap-pointment in bear circles over the nonful-fillment of the predictions of an advance yesterday in the Bank of England rate of discount. The grangers and other leading rallway shares made substantial gains and the speculative temper showed a decidmore cheerful sentiment. Good buy-in Leather preferred, which carried that stock up to 68, was attended by reports from apparently well informed quar-ters that the company had cleaned up the balance of the \$3,000,000 loan. Lead common and preferred were in moderate 1equest, but advanced 1@11/2 per cent., respectively, in expectation of the declaration of the regular quarterly dividend on

LOCAL GRAIN AND PRODUCE.

More Snap to Trade, with Eggs. Poultry and Vegetables Easier. The lower temperature which prevailed yesterday seemed to increase trade, and real blus-

tering, fall weather, it is thought, would still prices prevail, while in some articles prices are not as strong as a few days ago. On large re ceipts the egg, poultry and butter markets all rule easier. The hide and leather markets still carry a firm tone, and in staple groceries prices rule very firm. Sugars advance in price. The flour market is very firm and prices to-day advance another 25c per brl. Local millers have hard work to get wheat such as they require. The hay market is firmer in tone, but prices are unchanged. Prices on some descriptions of seed are easier. On Commission row it was fairly ctive yesterday. In all descriptions of fruits and vegetables there has been an improvement in quality of late and some very fine winter apples are now being offered.

The local grain market showed more activity vesterday. There is practically no wheat comng in, but receipts of corn are more liberal and the better prices for cats bring in more of that wheat-No. 2 red, 87c; No. 3 red, 82@84c; No. 4 red. 752780c; wagon wheat, 85c. The acceptance of the MacMonnies statue of the Bacchante and the very handsome explanation of a somewhat sensational incident have completely restored our confidence in the city of Boston as the hub of the artistic universe. It seems that the first rejection was based on the horror inspired by the photographs placed before the trustees of the library. We fully understance and appreciate this feeling. It was our misfortune to inspect the pictures of the statue printed by the Chicago morning papers, and we do not believe we have ever looked on a work more blasting to the eyes, more objectionable to the moral sense, more abhorren: to a correct standard of true Christian liv ing, unless it be the Columbus statue on the lake front. Our former comments were based entirely on the representations afforded by pictorial journalism, and we are now positive that had we seen the statue itself in all its virginal purity, coupled with the delightful instinct of maternity, we should have expressed other and better views. We understand that there are still a few decorous ladies in Boston who contena that the Bacchante is not sufficiently and discreetly veiled, but that is really neither customs of her people. Our idea would be to place the statue where the objecting ladies and innocent little children would not be forced to see it-to put in a corner where strong mer, and other devotees of high art might repair for devout and studious contemplation. However, we feel that we may leave this to the good taste and ripe discretion of the trustees, and we are glad that till of health and moral character.

Want No Outside Criticism.

Kansas City Journal. The Kansas papers are very much like the woman who, when her husband was December, 294,630c, closed at 294c. beating her and a chivalrous stranger rushed to the rescue, turned in and helped the husband punish the rescuer. When the returns came in and it was found how Kansas had gone at the late election the papers of the State could hardly find words strong enough to express their indignation and disgust. The folly of the voters was condemned most unsparingly and the State was classed with Arkansas and Texas in the utterly disreputable column. In a few days along came the Eastern papers with about the same sort of comment, only not quite so radical or severe. Thereupon the Kansas editors with one accord began to declare with asperity that the State was not hurt at all, that the Pops were really not dangerous, and that the Eastern press was meddling with something it didn't understand. All of which goes to show that while Kansas papers are willing to tell the to loyal to the State to allow outsiders to disparage it with impunity.

WHEAT WENT OFF 15-8C

DISAPPOINTING LIVERPOOL CABLES CAUSED EARLY WEAKNESS.

CHICAGO, Nov. 19.-Wheat, oats and provisions all turned very weak to-day after opening apparently firm. Corn was weak all the time. Everything on the speculative final figures. The declines in wheat were from 1%c in December to 1%c in May. Corn went off 1c, oats 1/2c, pork 121/2c, ribs and

a Cent and Pork 12 1-2c.

Liquidation was heavy in all markets, although the news generally favored higher prices. Wheat opened at a decline of 1/2c in both the December and May deliveries. It recovered all of that and 1/4c besides in the first fifteen minutes of the session and in the course of about three quarters of an hour from the start it had slid back to a four hours ending at 5 p. m., Nov. 19, 1896, as little lower than the lowest point it touched at the opening. The early opening was almost entirely due to disappointment over the opening Liverpool cables, which showed only a 34d advance in sympathy with the much larger advance here yesterday. The strength this time came from the other side of the continent, in reports from Califoria showing the immense proportions which the Australian business-has assumed. The flour mills of the State, according to these reports, are working night and day on Australian orders and orders for wheat from there now in the hands of San Francisco brokers are reported to amount to 1,750,000 bu. Opening quotations for December were at 78@784c as compared with yesterday's closing price of 7814c. After touching 77% for an instant the price jumped under the influence of the Austra-lian news referred to until 79c had been reached. Then came the second cables. They showed a decline since the opening of 14d and almost created a stampede among created, the conditions seemed favorfor continued strength in prices. 132,000,000 bu less than the annual average production for thirteen years past. The Northwest receipts were much smaller, or 87 cars against 806 cars yesterday, and 1,051 cars the same day last year. clearances were large and there was a good cash demand, both for export and for mill-But all this was overlooked. market continued to weaken during the last hour. Liquidation was active and heavy and as few operators had the courage to

give the market any support the decline met with little opposition. December gradually sold off to 76%c. After that there was a little turn for the better and at the close December was selling at 77%c. Heaviness was the conspicuous feature of the trading in corn. The chief depressing circumstance was the fact of new corn being sold in the sample market at 17c per which for immediate use was worth not far from as much as old corn. The cline in wheat was also an influence. May started unchanged at 27%c and declined to 26%c. closing weak at 26%426%c.

Oats were weak and lower nearly all day. though they showed some independent strength at the opening. The decline was altogether influenced by the break in wheat and corn, and a good business was trans-acted. May opened a shade higher at 22@ 22%c, sold a spilt fraction above that, then declined to 21%c, closing easy at 21% 22%c.

Wheat Fell Back.

NEW YORK, Nov. 19 .- All of yesterday's advance in wheat was wiped out to-day by excessive liquidation and unsatisfactory foreign news. Liverpool cables closed 46 16d lower and the latest advices from Argentine suggested a larger surplus this year than generally expected. This, coupled with a slower cash demand throughout the of all grades. The market was stronger, but country, destroyed buil influence. December sold off to 85%c from an opening figure of 871sc, and closed at 857sc, which was a cent below last night. Most of the selling, however, was in May, narrowing the difference between that month and December to c. Export trade was insignificant. Corn shared the weakness in wheat and under general unloading lost a cent a bushel. Total wheat sales for the day were 5,715,000
